KMOX Radio - 4 Members of Congress Send Letter to EPA Over West Lake Landfill - 7/23/14 - A stern letter from the region's four Congressional representatives warns the EPA about the radioactive West Lake Landfill. Soil testing continues at baseball fields near the landfill, and the letter says that Senators Claire McCaskill and Roy Blunt and Congressmen Ann Wagner and Lacy Clay want to know the results. Early screen are clear.

Associated Press - Cleanup of lead at eastern Missouri park nearing an end - 7/23/14 - A three-year project to clean up lead pollution is nearing an end at a popular Missouri state park on the site of a shuttered mine. Francois County's St. Joe State Park, known for its sand flats, hills and 2,000 acres set aside for all-terrain vehicles, sits on land in the eastern part of the state that once included a dump for mine waste called tailings, the St. Louis Post-Dispatch reported this week.

The Cap Times - Richard Eidlin: EPA's carbon rules good for business, good for economy - 7/23/14 - Some national business organizations have hammered the Environmental Protection Agency for proposing new rules on carbon pollution from existing power plants, cutting carbon emissions by 30 percent by 2030, using 2005 levels as a baseline. What planet are they on?
http://host.madison.com/ct/news/opinion/column/richard-eidlin-epa-s-carbon-rules-good-for-business-good/article_d5045a88-ba49-572b-ad00-518514bdd172.html

Bloomberg News - EPA working on new fuel economy standards - 7/23/14 - The U.S. is trying to craft new requirements by next year for how automakers assess fuel economy to ensure lab tests reflect real-word driving, an Environmental Protection Agency official said.

The Hill - OVERNIGHT ENERGY: Industry gangs up on EPA climate rule - 7/22/14 - On Tuesday, leading industry groups laid out their grievances in a united front against the Environmental Protection Agency's (EPA) signature climate rule. Groups like the American Petroleum Institute (API), which said earlier this month that lobbying against the EPA's regulations to cut carbon dioxide from existing power plants would not be a priority, joined the push against it Tuesday

Energy Collective - Power Over Pollution: How Legal Enforceability Will Drive Implementation of EPA's Power Plant Rule - 7/23/14 - Last month, the Environmental Protection Agency (EPA) proposed CO2 emission guidelines for existing power plants. Once EPA issues the final rule in 2015, each State (except for Vermont) can submit a plan to EPA describing how it will meet its power sector carbon intensity target by 2030, or it can accept a plan written by EPA.
